REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Consider claims 1,5. The nearest prior art as shown in Beaton and Shachar fails to teach a mobile radio comprising: a memory storing data received via a wireless line, having a hyperlink of telephone number information; a data display section for the data stored in the memory; a section detecting an operation of the hyperlink when the data is being displayed but no voice communication being executed; a call control section executing a call out process for establishing voice communication to a destination terminal identified by the telephone number information; and a display control section to display at least a part of the data having the hyperlink, while at least one of executing the call out process and voice communication with the destination terminal by the call control section.

Consider claims 6,10. The nearest prior art a shown in Beaton and Shachar fails to teach a method comprising: in step a detecting an operation of a hyperlink of telephone number information of data received via a wireless line in the state of data being displayed on a data display section of the mobile ratio terminal but no voice communication being executed; in step b, upon detection of the operation in step a, executing a call out process for establishing voice communication with respect to a destination terminal that is identified by the telephone number information; and while at least one of the executing of the call out process in step b, and executing voice communication with the destination terminal, displaying at least a part of the data having the hyperlink on the data displaying section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip J. Sobutka whose telephone number is 703-305-4825, after March 2005 the number will change to (571) 272-7887. The examiner can normally be reached on Monday-Friday 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay Maung can be reached on 703-308-7745, the fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9314 for regular communications and 703-872-9314 for After Final communications.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
